

## SNIPPETS

### Home Page Layout

Inserted to the home page only in case formatting gets lost during edit. To change a header image, go to the Properties tab when editing, and select an image for Header Image. To add more header images, in the manager, under Assets, click on Images and upload your images under (30) Header Images.

### Inner Page Layout

Besides the home page, this snippet must be added to every single page before adding content. Highlighted text in yellow are guidelines to what the areas are in the page. No header image will appear in the page unless a header image is added.

HEADER CONTENT: header content goes here

# It starts with **our children**

When four-year-old Sam attends his first day of school in the fall, he will be behind other children his age across the country.

DIAMOND: replace text below

It starts with understanding  
It starts with knowledge  
It starts with our children

PAGE CONTENT: start page content here

He will have greater difficulty with communications skills, socializing and language and many other developmental skills. In fact, a large percentage of children who attend school in Wood Buffalo will experience difficulty in these areas. Through evidence-based research, we can help health care professionals understand the causes behind these delays and foster healthier, stronger families across our region.

The first five years of a child's life are the most critical and can set their course for either a promising or difficult life. Through research and practice, we know there are many socio-economic and demographic factors that contribute to a child's development. With an average of 100 births a month and a significant portion of the population in their child raising years, Wood Buffalo needs to invest in the wellbeing and future of our young.

### Block Quote and Overlapping Images

Should only be added within the Page Content area of the Inner Page Layout snippet. Replace text/images as needed.
